

GIFTS FOR ARTSAKH CHILDREN

PROJECT SUMMARY

The goal of the project is to organize New Year presents to Artsakh children under the age of 6.

For any child, a New Year's gift is a small miracle that will remain in their soul for their whole life. Funds raised within the framework of the project were intended for the purchase of children's gifts for New Year and Christmas. However, Azerbaijan's blockade of Artsakh prevented that miracle from happening.

As a result, it is planned to deliver the gifts to the children on Easter (subject to the Lachin corridor's unblocking).

The gifts include books, games, coloring books, and sweets.

Today more than 12,000 children under the age of six live in Artsakh.
